

NW 21

MEDIUM CUT & POLISH

PRODUCT DESCRIPTION

Medium cutting-polishing liquid compound 2 in 1, which effectively removes scratches and oxidation, while leaving a remarkable shiny finish. **NW 21** has been especially developed as “one-step” on painted surfaces as well as on soft and coloured grp parts, where the need is removing P1200-P1500 sanding marks and the aim is achieving a superb glossy appearance with no holograms and superficial marks.

PHYSICAL PROPERTIES

Colour: White
 Physical form: Liquid-creamy
 Odour: Light and pleasant
 Density: 1,290 g/ml
 Flammability: Not flammable
 Type of surface: Lacquer, painted surfaces

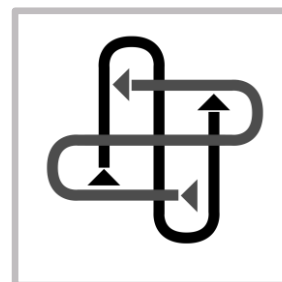

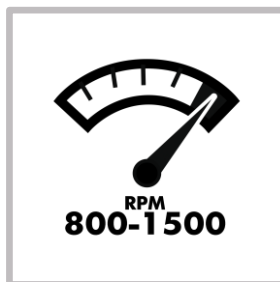

HOW TO USE

Shake before use, then apply by variable speed polisher, selecting either a hard white foam pad for a more delicate and balanced cutting action or an anti-scratch wool pad **SL3** for a heavier and quicker one. Pour a small quantity of compound on the polisher-pad. Let the polisher turn at low revolutions, speeding them up (800-1500 RPM) while spreading the paste with crossed movements. Pay attention at not overheating the surface. Eventually, wipe it off with a clean cloth.
