RUSTY FALL-X

METAL FALLS REMOVER

CLEAN
GLOSS

PRODUCT DESCRIPTION

This is a concentrated specific non-acid cleaner that removes superficial rust and iron residues. Its specific formula attacks the metal oxide, dissolving and taking rust away. It is a perfect product for railroad rust and chimney metal particulate removal. Unlike acid products, its revolutionary composition with neutral pH allows a simpler and safer usage, as it does not damage plastic and rubber car parts.

PHYSICAL PROPERTIES

Colour: Yellow
Physical form: Liquid
Odour: Characteristic
Density: 1,100 g/ml
Flammability: Not flammable
Type of surface: Car bodywork

HOW TO USE

This neutral pH product has a very marked odour; it is recommended to use it in the open air or in a well-ventilated area. Before application, please clean the application area. Then spray **RUSTY FALL-X** directly on the surface to treat, letting it act for few seconds. Red-brown flowing down will appear, indicating that the dissolving process has begun. Finally, rinse with a high-pressure water jet.
