LASTING PLASTIC RESTORING POLISH

CLEAN ■■■■■ □□□□

GLOSS ■■■■■■■■■■

PRODUCT DESCRIPTION

Plastic restoring polish for plastic car parts. Through its innovative formula made up with top waxes and state-of-the art polymers, this specific polish cleans, shines and restores plastic parts such as dashboards, front and rear bumpers, etc., leaving a semi-glossy and antistatic protective film. It leaves a fresh and pleasant scent.

PHYSICAL PROPERTIES

Colour: White
Physical form: Liquid
Odour: Light and pleasant
Density: 0,9968 g/ml
Flammability: Not flammable
Type of surface: Car interior, plastic, rubber, synthetic leather, aluminium

HOW TO USE

Please spray a small quantity of product on **SILKY DOUBLE** Microfiber and spread it with circular movements. Eventually, remove it with the opposite side of the Microfiber. If a higher gloss level is desired, please repeat the application twice, increasing the quantity.
