

RUSTY FALL-X

METAL FALLS REMOVER

PRODUCT DESCRIPTION

This is a concentrated specific non-acid cleaner that removes superficial rust and iron residues. Its specific formula attacks the metal oxide, dissolving and taking rust away. It is a perfect product for railroad and harbour rust as well as chimney metal particulate removal. Unlike acid products, its revolutionary composition with neutral pH allows a simpler and safer usage, as it does not damage plastic and rubber parts.

PHYSICAL PROPERTIES

Colour: yellow
Physical form: liquid
Odour: characteristic
Flammability: not flammable
Type of surface: gelcoat, painted surfaces, metal

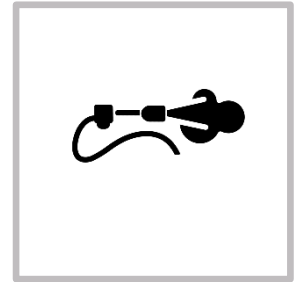

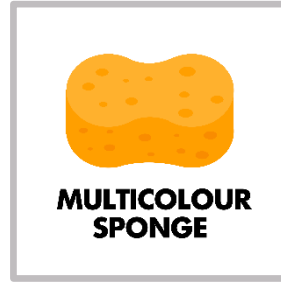

HOW TO USE

This neutral pH product has a very marked odour; it is recommended to use it in the open air or in a well-ventilated area. Before application, please clean the application area. Then spray **Rusty Fall-X** directly on the surface to treat, letting it act for few seconds. Red-brown flowing down will appear, indicating that the dissolving process has begun. Finally, rinse with a high-pressure water jet.
