

# GRIME HUNTER

## BILGE CLEANER

### PRODUCT DESCRIPTION

This is a concentrated cleaner for bilge and engine compartments, used to safely dissolve grime, sludge, fuel residues, grease and oil in the most effective way. It neutralises unpleasant odours and has a high sanitising action. Its formula, based on detaching agents, acts deeply, allowing dirt suspension, thus making it extremely easy to remove. It can be used even with seawater; it does not harm plastic and metal parts. Its scent is fresh and pleasant.

### PHYSICAL PROPERTIES

**Colour:** Amber  
**Physical form:** liquid  
**Odour:** light and pleasant  
**Flammability:** not flammable  
**Type of surface:** bilge, engine compartment

### HOW TO USE

**GRIME HUNTER** can be dilute from 3 to 8% in water, depending on the level of dirt to remove. Pour it in the bilge and let it act for a while, then drain it. It is also possible to leave the product in the bilge while running the boat, before pumping it out, always in accordance with local regulations
