CLEAN & CHECK

CLEAN

GLOSS

PRODUCT DESCRIPTION

Specific product for surface cleaning before polishing, as well as for a good control of the elimination of sandpaper scratches. Through its innovative components, this specific cleaner removes layers that usually hides defects and marks and brings up scratches, holograms and hazes, without affecting the gloss level. It may be used to clean also plastics, rubber, glasses, resins as well as painted surfaces and lacquers.

PHYSICAL PROPERTIES

Colour : Light blue
Physical form : Liquid
Odour: Light and pleasant
Density: 0,960 g/ml
Flammability: Not flammable
Type of surface: Gelcoat, lacquer, plastic, rubber, glass

HOW TO USE

Please spray a little quantity directly on the area to treat. Let it act for a while, then remove it with a microfiber or a soft cotton cloth. Before applying another product, it may be necessary to rinse the surface with a wet sponge.
